### *A Brief Synopsis*

- ④ In US, the IHS Manufacturing Purchasing Manager Index (PMI) registered at 55.6 in Sep18, a jumped from 54.7 in Aug18, where a reading above 50 indicates growth. The overall operating condition across the US manufacturing sector showed strong improvement driven by sharper rises in output and new orders. New orders continued being boosted from strong domestic demand. In Sep18, 134,000 jobs were created in US and unemployment rate dropped to 3.7%, reaching the lowest level since Dec69. On a separate note, US, Mexico, and Canada have agreed on forming United States-Mexico-Canada Agreement (USMCA) to replace NAFTA which will offer some sense of stability on trade related issues.
- ④ China's official manufacturing PMI fell to 50.8 in Sep18, from 51.3 in Aug18. China economy was already starting to cool this year even before the trade dispute due to rising financing cost and slowing investments. Exacerbated by trade dispute, new export orders contracted for four straight months from 49.4% in Aug18 to 48.0% in Sep18. In order to spur growth in the economy, China central bank will cut reserve requirement ratio by 100 basis points to 13.5%, effective 15<sup>th</sup> Oct 2018.
- ④ In Europe, the IHS Markit Eurozone Manufacturing PMI decreased to 53.2 in Sep18 compared to 54.6 in Aug18. Growth was the weakest since Sep16, due to a weakening trade cycle. Eurozone new export orders fell to a more than five-year low of 50.2 from 52.0. Export-led slowdowns are evident in many European countries such as Germany, France, Italy, Spain, and Austria. Nevertheless, some other countries like Netherland and Ireland continued to report strong growth of exports.
- ④ ASEAN bourses registered mixed performance in Sep18. Thailand's Stock Exchange Index (SET) recorded the strong gain of 2.0% mom, followed with Singapore's Straits Times index (STI), which gained 1.4% mom. Philippines's Stock Exchange index (PCOMP), FTSE Bursa Malaysia KLCI index (FBMKLCI), and Indonesia's Jakarta Composite index (JCI), recorded negative return, fell by 7.4%, 1.5%, and 0.7% mom respectively.
- ④ In the first week of Oct18, 10-year Treasury yield rose above 3.25%, a level that was never seen since 2012, a seven-year high reading. This spooked investors as global market sell down happened shortly after. We remain cautious of these development and will continue to monitor the market development more closely.

# Window to the World

**US: Consumer Confidence Hits 18-year High in Sep18** – US consumer confidence surged to 138.4 in Sep18 from an upwardly revised 134.7 in Aug18, as households grew more upbeat about the labor market, pointing to a sustained strength in the economy despite a bitter trade dispute with China. The house price inflation released by the Federal Housing Finance Agency also recorded a lower reading in Jul18, rising 0.2% after gaining 0.3% in Jun18. The slowing in house prices continue to support consumer spending, as well as bolstering consumer confidence in the US.

**Japan: Exports rose 6.6% in Aug18** – Japan export accelerated in Aug18 from the previous month supported by stronger shipments to the US. Export climbed 6.6% yoy to ¥6.691tril up from 3.9% yoy growth in Jul18, as shipments to US grew 5.3% yoy in Aug18. However, imports jumped 15.4% to ¥7.136tril from 14.6% a month earlier.

**Eurozone: Volume of retail trade down by 0.2% mom in Aug18** – Retail sales fell for two consecutive months, posted a decline of 0.2% mom in Aug18. The performance was dragged by automotive fuel that fell 0.6% mom and food, drinks and tobacco which dropped 0.3% mom; while non-food products remained stable. Weakening of retail sales were a worrying sign for Eurozone, as waning of overseas sales left the economy to be more reliant on household spending, which account for 54.6% of its GDP.

## A Peep into Malaysia

**FBMKLCI** decreased by 1.5% mom in Sep18 to close at 1,793 after two consecutive months of gain. Looking at the trading participants for the month, foreign investors became net buyer, after four months of selling, bought RM66mil worth of shares in Sep18. Local retailers were selling RM90mil worth of shares while local institutions were buying RM23mil worth of shares. On year-to-date (YTD) basis, foreign investors remain as the net seller, selling RM8.4bil whilst the local institutions and local retailers are the net buyer, buying RM6.3bil and RM2.1bil worth of shares respectively.

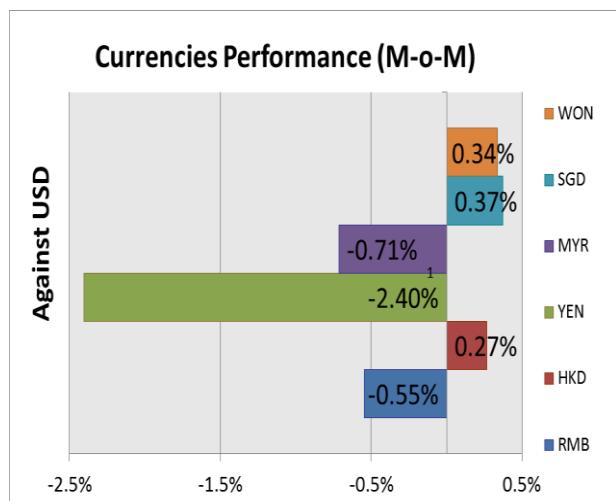

**Export declined by 0.3% yoy in Aug18** – The drop in exports was reflected across the board, especially demand for manufactured goods, which slowed down significantly from 12.6% yoy in Jul18 to 1.8% yoy in Aug18. Exports of electrical and electronic (E&E) goods, slowed to 3.2% yoy in Aug18 from 23.6% yoy in Jul18. On agriculture goods, exports contracted by 20.8% yoy in Aug18 with exports of palm oil and palm oil-based agriculture products fell by 26.6% yoy in Aug18. The decrease may be attributed to the sharp depreciation of Indian Rupee as India is the world's largest importer of edible oils. In Aug18, Malaysia exports to India plunged 24.1% yoy after a sharp drop at 18.3% in Jul18. In contrast, demand for chemical and chemical products which accounted 6.1% from total exports, down 22.6% yoy in Aug18 after a 19.3% jumped in Jul18.

**Malaysia Manufacturing Index (MPI) increases** – MPI rose to 10-month high of 51.5 in Sep18 from 51.2 in a previous month. The improvement was driven by a stronger rise in employment, with the rate of job creation in the manufacturing sector was the strongest since Jul12 as firms reported taking on more staff in preparation for expected workloads. The volume of new work received by manufacturers also rose for the second month running in Sep18, despite the introduction of the SST at the start of the month. Output expectations remained positive during Sep18, with manufacturers expecting more business from customers over the next 12 months. However, the strength of sentiment weakened, reflecting concerns among some firms that the implementation of the SST may lead to slow orders in the future.

## Dark clouds, but not raining yet

After months of negotiations, US, Canada and Mexico, finally struck a new trade deal to replace North American Free Trade Agreement (NAFTA) with US-Mexico-Canada Agreement (USMCA). USMCA prohibits its signatories from entering a free-trade agreement with China, which adds further pressure on China amidst the ongoing US-China trade war. Effective on 24th Sep 2018, President Trump imposed 10.0% tariffs (lower than original 25.0%) on \$200 billion Chinese goods, and it may be increased to 25.0% in Jan19. There is no sign of ease as China retaliated by slapping tariffs on another \$60 billion worth of US goods, which further escalate the tension between US-China and heightened market uncertainty. We made some changes to our allocation where we reduce our exposure to India (widening fiscal deficit concern) and European (Brexit uncertainty, Italy budget and ECB stop QE in Dec18) market and raised our cash position as part of our tactical asset allocation. We will continue to monitor the US-China trade development and EM contagion very closely.

In Malaysia, foreign investors turned net buyers, buying RM66mil in Sep18 after four consecutive months of selling, showing that selling pressure appears to have dried up which bodes well for the sentiment of local markets. On the currency front, the Ringgit continued to weaken by 0.7% mom in Sep18 due to stronger USD, as investors flocked to safety amidst the continued tightening of the monetary policy by US Federal Reserve. YTD, the Ringgit has weakened 2.3%. Despite the current weakness, Ringgit remains supported by favourable underlying fundamentals such as the sustained external trade surplus, firm crude oil price and positive real interest rates.

A key domestic event to watch now is the upcoming Budget 2019 on 2nd Nov 2018, where the concerns will be over the Government's ability to maintain fiscal consolidation momentum following the impact on Government finance losing net RM23bil annual consumption tax revenue as direct consequences from abolishing GST, as well as the outstanding RM35bil tax refunds. Despite the concern of widening fiscal deficit, we remain our neutral stance with cautiously optimistic on the development of Malaysia, as the new government focus remained on the well-being of Malaysia economy.

- ⌚ Phillip Master Equity Growth fund gained 1.7% in Sep18 driven by MI Equipment Holdings and QES Group which recorded a gain of 30.0% and 25.9% in Sep18. However, the performance was offset with the loss of OCR Group and GDB Holdings which posted -19.5% and -12.5% respectively. The fund is currently facing the external and internal headwinds such as indirect impacts of US-China trade tension, weakening Ringgit and weaker-than-expected corporate earnings. The fund currently holds high cash position which enables it to be more nimble to ride the current market volatility.
- ⌚ AmSchroders European Equity Alpha fund recorded a positive return of 1.5% in Sep18. ECB maintained the interest rate during its September meeting on the main refinancing operations, the marginal lending facility and the deposit facility which will remain unchanged at 0.00%, 0.25% and -0.40% respectively. The council expects the key ECB interest rates to remain at their present levels at least through the summer of 2019, to sustain the convergence of inflation at around 2% over the medium term. The inflation rate for the Eurozone slipped to 2.0% yoy in Aug18 from 2.1% yoy in Jul18, indicating an improvement in the economy across the EU.
- ⌚ Fund invested in the India market, namely Manulife India Equity dropped by 8.9% in Sep18. Indian rupee depreciated by 1.4% mom and 11.0% YTD against MYR, while fuel prices across the country had witnessed a sharp spike over the last month due to rise in global crude oil prices. The debt crisis facing by the conglomerate company, Infrastructure Leasing & Financial Services (IL&FS) also made the situation worst, causing the SENSEX index fall 6.3% mom in Sep18. The worst hit were funds investing in banking stocks as the defaults in payments by certain group entities of IL&FS had triggered fears of liquidity crisis in the financial market. These internal and external headwinds had influenced foreign investors to pull out their investments which directly impacting Manulife India Equity as 31.1% of its NAV was invested in financials sector.
- ⌚ For Fixed Income Category, we are of the view that risk-averse investors may want to take this chance to explore opportunity in quality bonds as developed nations are looking forward to increase its interest rate with US Fed has increased its Fed Fund Rate by 75bps this year and anticipating the federal target rate to reach 2.375% at the end of 2018 during Dec18 FOMC meeting.
