### Global Highlights

#### US labor market recovery slowing; economists urge more fiscal stimulus

The number of Americans filing new claims for unemployment benefits hovered around 1mn in Aug, suggesting the labor market recovery was stalling as the Covid-19 pandemic drags on and financial aid from the government dries up.

#### US tightening restrictions on Huawei access to technology chips

The Trump administration announced it will further tighten restrictions on Huawei Technologies Co, aimed at cracking down on its access to commercially available chips without a special license - including chips made by foreign firms that have been developed or produced with US software or technology.

#### US, China reaffirm commitment to Phase 1 trade deal

Top US and Chinese trade officials reaffirmed their commitment to a Phase 1 trade deal, which has seen China lagging on its obligations to buy American goods, giving a boost to financial markets. The parties also discussed the significant increases in purchases of US products by China as well as future actions needed to implement the agreement.

### Malaysia Highlights

#### Profit-taking ends four-month winning streak

KLCI's four-month-long winning streak came to a halt due to profit-taking by local and foreign institutional investors. KLCI fell 78pts (-4.9% m-o-m) in Aug, closing at 1,525pts driven by profit-taking in the banking sector and Hartalega due to concerns over weaker-than-expected corporate earnings registered by cyclical sectors in 2Q20.

#### Share of retail participants reached new high of 45%

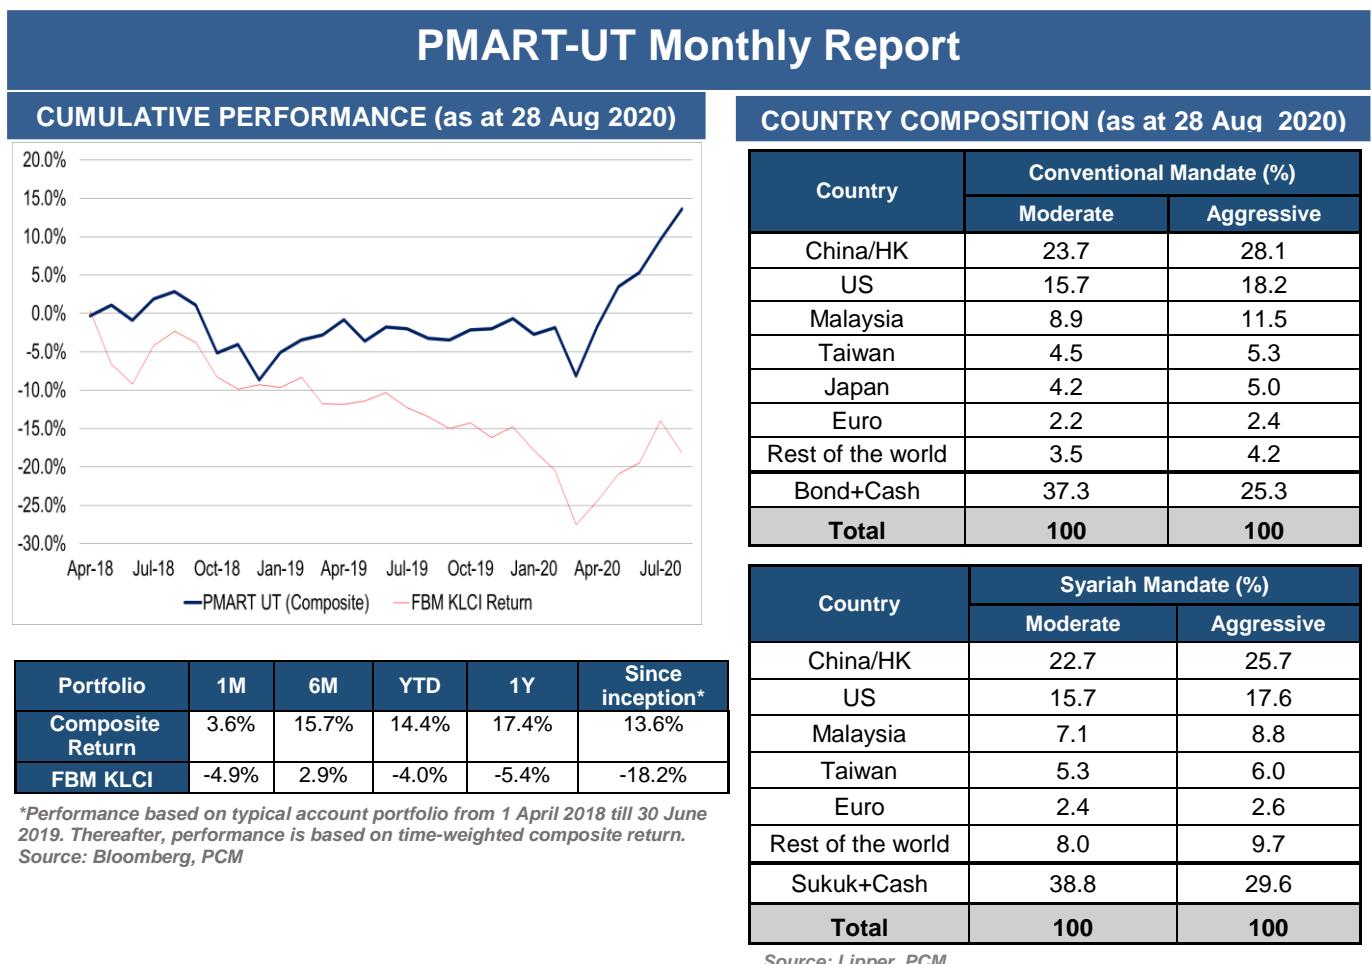

The share of local retail participants' daily trading activities rose 5% mom to a new high of 45% in Aug. On top of this, retail investors were the only net buyers of equities (RM1.78bn) in Aug and were key to absorbing the net selling from local institutions of RM399mn and foreign investors worth RM1.78bn.

#### Extension of Recovery Movement Control Order (RMCO) until 31 Dec 2020

On 31 Aug, Prime Minister Tan Sri Muhyiddin Yassin announced that the RMCO would be extended to 31 Dec. The decision took into account the recent emergence of new clusters and the number of daily new cases.

## Market Outlook

- The usually weak Aug month ended up strongly. In fact, the US has its best Aug month in its stock market in 30 years. However, the Malaysian market ended lower due to last minute selling on MSCI rebalancing as well as fear of discovery of workable vaccine led to profit-taking among investors. Having gone through the worst period, our market will likely stay firm for the next few months and we will gradually increase our investment.
- Bank Negara Malaysia's next Monetary Policy Meeting will be on 10 September, with views that the central bank may reduce the Overnight Policy Rate, in accordance with the surprising increase on the downside and stiff recovery path ahead in the coming months. Hence, we foresee there will be a final 25bps cut by BNM as early as in the forthcoming September meeting, aiming to buffer the economy from the impact of the pandemic.
