## Focus

A MONTHLY NEWSLETTER EXCLUSIVELY FOR  
INVESTMENT PROFESSIONALS

### Global Highlights

#### **US: Existing home sales drop sharply, Prices Surge**

US home sales fell more than expected in Feb as cold weather blanketed many parts of the country. Home resales, which account for the bulk of U.S. home sales, increased 9.1% on a y-o-y basis. Sales declined in the Northeast, South and the Midwest, but rose in the West. Bitterly cold weather, including severe winter storms in Texas and other parts of the densely populated South region, disrupted economic activity, depressing retail sales, production at factories and homebuilding.

#### **EU: Confidence rises to strongest since pandemic started**

Confidence in the euro-area economy improved sharply in Mar, reaching levels last recorded before the pandemic, as companies and consumers see vaccine rollouts eventually helping support a recovery. A European Commission sentiment index increased to 101.0, exceeding all estimates in a Bloomberg survey. Sentiment rose across all sectors of the economy and particularly strongly in Germany, the region's largest member. Employment expectations jumped.

#### **China: PMIs eased further in Feb**

The private sector Caixin manufacturing Purchasing Manager's Index (PMI) dropped for the third consecutive month, by 0.6 points to 50.9 in Feb. The index is now at its lowest since June 2020. The CFLP manufacturing PMI had also fallen by a larger-than-expected 0.7 points to 50.6 in Feb. New export orders fell into contraction for the first time in six months, to 48.8 in Feb (from 50.2 in Jan) while employment had remained in contraction (48.1 from 48.4 in Jan). Despite weaker readings, production (51.9 from 53.5 in Jan) and new orders (51.5 from 52.3 in Jan) were still in expansion in Feb.

### Malaysia Highlights

#### **Malaysia removed from FTSE Russell Watch List for downgrade**

Malaysia removed from FTSE Russell Watch List for downgrade FTSE Russell announced at its bi-annual review that Malaysia has been removed from the watch list for a potential downgrade in Market Accessibility Levels and remains a constituent of the World Government Bond Index (WGBI). The decision removes the risk of Malaysia being reclassified from its current Level '2' rating, which is the minimum required for inclusion in WGBI. Malaysia was first placed on the Watch List for a downgrade in Mar 19.

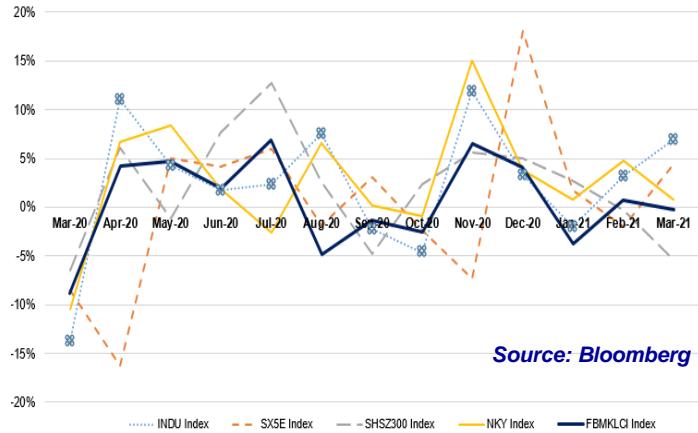

#### **Re-exports lifted exports and imports performance in Feb**

Malaysia's trade activity expanded 15.4% y-o-y in Feb, the strongest growth since Oct 18, which also exceeded market expectations. Base effects, global economic recovery, rising commodities prices, and the arrival of Covid-19 vaccines, were among the key drivers contributing to the trade outperformance, with exports surging 17.6% y-o-y (+6.6% y-o-y in Jan) and imports jumping 12.7% y-o-y (+1.3% y-o-y in Jan). Excluding re-exports (+65.0% y-o-y in Feb vs. +7.5% y-o-y in Jan), domestic exports came in at +10.4% y-o-y (+6.3% y-o-y in Jan) and retained imports were more subdued at +2.9% y-o-y (-0.5% y-o-y in Jan). The trade surplus widened to RM17.9b last month (+RM16.6b in Jan).

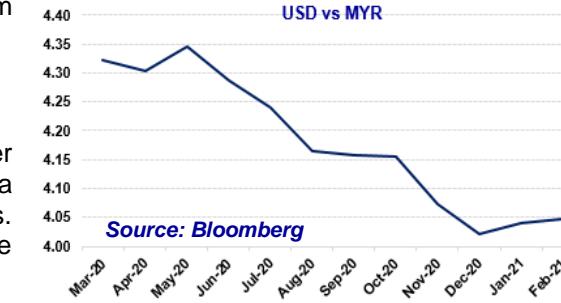

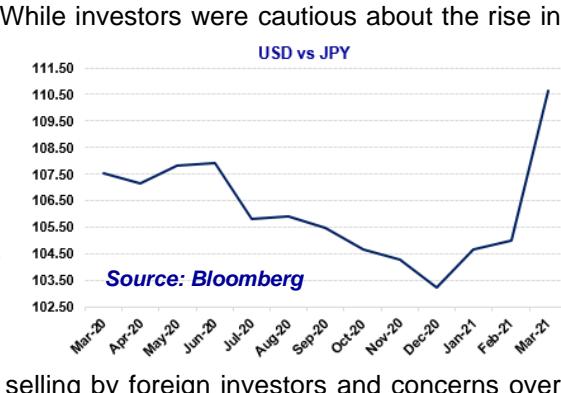

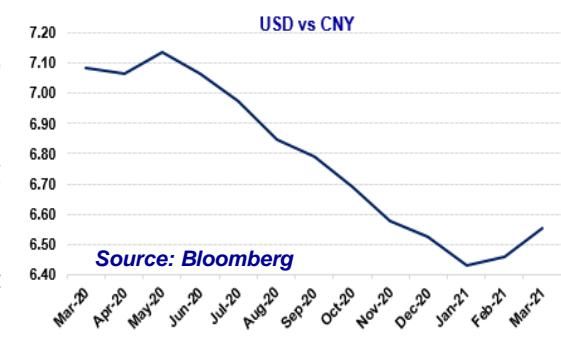

## Stock Market Indices Performance

### Market Performance

- ⌚ The **CSI 300 Index** continued to drift lower in Mar, falling 5.4%. The sell-off was mainly on big capitalisation stocks and China American Depository Receipt (ADR) related stocks (SEC's update on the Holding Foreign Companies Accountable Act reinforced delisting risk for ADRs). The correction was mainly triggered by a disorderly rise of US 10yr bond yields. Heightened domestic regulation on internet, e-cigarettes and after school tutoring crimped investment for relevant sectors.
- ⌚ Improved economic conditions and broadened vaccine programs ignited a broad stock market rally, though rising treasury yields dragged on technology and high growth stocks. Technology stocks and high growth stocks played a limited role in Mar rally as investors rotated their portfolios into other sectors, including cyclical names. With the Fed affirmed its monetary policy, which helped push the **Dow Jones Index** (+6.9% m-o-m) to record closing highs.

- ⌚ It was another bullish month for **Euro Stoxx 50 PR Index** (+7.9% m-o-m) in Mar 21, following on from a Feb recovery from of Jan losses. The effects of both fiscal and monetary policy support were evident in manufacturing sector activity in Mar. Impressive economic data and market sentiment towards the US economy drove demand for riskier assets.
- ⌚ The **Nikkei 225** registered further gains of 0.7% in Mar 21. While investors were cautious about the rise in US long-term interest rates, Japanese stocks rose as expectations heightened for more widespread vaccinations and US stimulus policies. In the latter half of Mar, however, concerns rose again regarding the rise in US long-term rates, and Covid-19 infections increased in Europe, weighing down Japanese share prices.
- ⌚ At the start of month, market sentiment was boosted by news of higher crude oil prices, the government's decision to end the MCO in key states on 4 Mar as well as the launch of a RM20b stimulus package on 18 Mar. However, the market fell significantly on the last trading day of the month due to selling by foreign investors and concerns over political uncertainty. Overall, the **FBMKLCI** lost 0.3% m-o-m in Mar 21.

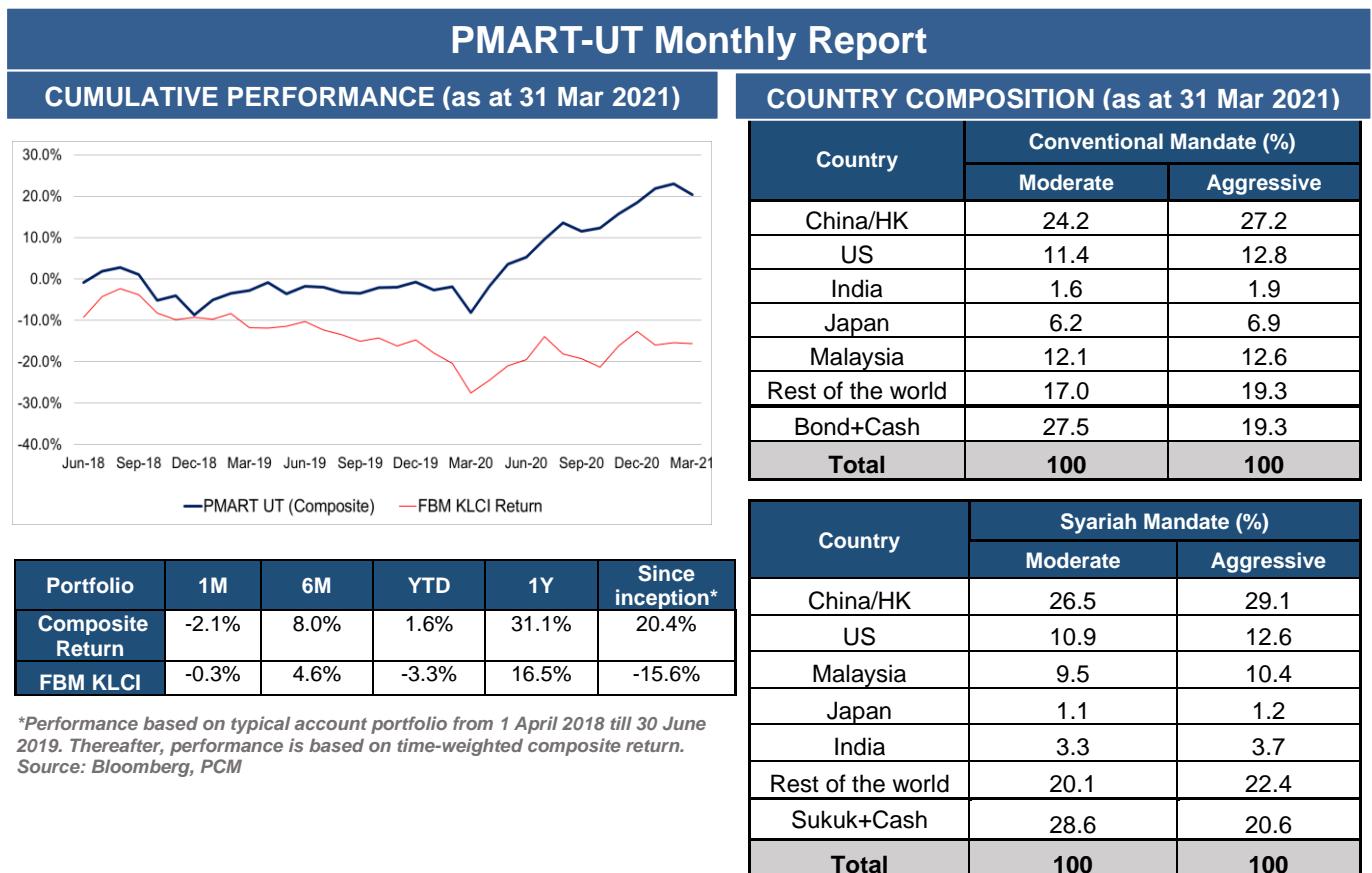

### Currency

- ⌚ **USDCNY:** CNY eased to the lowest since December following unfavourable headlines surrounding the US – China dialogue and the Xinjiang sanctions by western governments. The conservative official 2021 GDP growth target of above 6% also weighed on the currency.
- ⌚ **USDJPY:** JPY plunged for the third straight month to a level last seen in March 2020. The poor performance was mainly due to dollar appreciation amid rising US bond yields on stronger US economic data and concern over the third wave of Covid-19 infections in Europe. The yen was also pressured after and the Bank of Japan widened its target band for the benchmark yield and weak Japanese GDP data.
- ⌚ **USDMYR:** Despite Malaysia's removal from the FTSE Russell Watch List, higher average Brent crude oil price of USD65.8/barrel in March (Feb: USD62.3/barrel) and improving domestic Covid-19 situation, MYR slipped to its lowest level since Nov 2020 against a strengthening US dollar due to a rapid rise in Treasury yields.

## Market Outlook

- Near-term challenges may stem from US bond yield overshoot, mitigating liquidity supports, input cost hikes and return of USD strength.
- We continue to expect value and cyclical laggards to catch up. Supportive fundamental narratives remain in place and any material correction will present valuable entry points for quality names.

\*Performance based on typical account portfolio from 1 April 2018 till 30 June 2019. Thereafter, performance is based on time-weighted composite return.

### Review

- **Performance Overview** - Our portfolio fell -2.1%, underperforming the FBMKCI's return of -0.3%. Funds within our portfolio recorded mixed returns, dragged down by our exposure in global market particularly China due to decline in the Chinese markets and rising long term bond yield, which affected the bond funds.
- **Top Performer** – RHB Islamic Global Developed Markets MYR - Outperformance was driven by rise in US stocks due to investors' optimism in economies reopening and Biden's infrastructure spending plan.
- **Worst Performer** – Kenanga Growth Opportunities – Underperformance was due to its exposure in healthcare and technology sectors, which fell in March.
- **Allocation** – We have made some changes to the model portfolio as below.
  - Reduce exposure in RHB Islamic Global Developed Markets MYR due to recent volatility in US technology sector and increase exposure in Asia.
  - Reduce exposure in Eastspring Investments Dinasti Equity and increase in Principal Greater China Equity MYR due to its decent performance.

We expect the market to improve gradually to be driven by extensive rollout of vaccine and gradual restoration of market demand and supply chains.

## YTD Review – Conventional

- Phillip Master Equity Growth** – Performance was supported by its top holdings in the industrial product sector, which outperformed significantly.
- United Golden Opportunity MYR H** - Gold price fell due to rise in US treasury yields, which dragged down the performance of the fund.

**Note:**

ABS denotes ranking based on absolute return  
RAR denotes ranking based on risk-adjusted return  
- YTD is from 31/12/2020 to 31/03/2021.  
- 1 and 3 year returns are based on rolling returns.  
'E' EPF approved

**The Mechanism**

- 1) Superior ranking based on risk-adjusted-return.
- 2) Commendable ranking based on absolute return.
- 3) Fund size (preferably RM25 million)
- 4) Check on short-term return (1-month or 3-month returns)
- 5) Check top holdings and sectors allocation
