## ④ US: Fed raised interest rates by 0.25%, intensifying inflation fight despite banking fears

In a month marred by bank failures and a state-backed bank merger, the Federal Reserve (Fed) raised interest rates by 0.25% to a range of 4.75-5.00% – its highest level since Sep 2007 – and marked the ninth consecutive hike. Meanwhile, US Consumer Price Index (CPI) rose 0.4% m-o-m in Feb 2023 (Jan: 0.5%) mainly led by the increase in the shelter cost index. On a year-over-year basis, CPI eased off tad lower for the eighth consecutive month to 6.0% (Jan: 6.4%).

## ④ EU: ECB and BoE raised interest rates by 0.50% and 0.25% respectively as inflation remained a concern

Eurozone's headline inflation moderated to a 10-month low in Mar to 6.9% (Feb 23: 8.5%, Jan 23: 8.6%) amid mild correction in global energy prices, easing supply chain pressure and high-base effects. Additionally, the Eurozone producer price index (PPI) eased further to 13.2% y-o-y in Feb, the lowest level in 19 months, amid a slowdown in energy costs (Jan 23: 15.1%, Dec 22: 24.6%). Meanwhile, the unemployment rate was stable at 6.6% in Feb (Jan 23: 6.7%, Dec 22: 6.6%, Feb 22: 6.8%). The composite purchasing managers' index (PMI) for Mar came in at 54.1% (Feb 23: 52.3%, Jan 23: 50.3%, Dec 22: 49.3%), marking the fastest expansion since May 2022. Finally, the European Central Bank (ECB) and Bank of England (BoE) raised interest rates by 50bps and 25bps respectively, as widely expected given inflation remained persistent.

## ④ China: PMI eased in Mar; PBOC delivered first cut to banks' RRR In 2023

The PMI Index eased slightly to 51.9% in Mar (Feb: 52.6%, Jan: 50.1%) affected by high base of the previous month. Despite this, the PMI Index has been at above the 50-point mark for three consecutive months since Jan, reflecting that China's economic development is stabilising and picking up. New orders eased (53.6% vs 54.1% in Feb), export sales fell (50.4% vs 52.4% in Feb) and output weakened (54.6% vs 56.7% in Feb). Meanwhile, the People's Bank of China (PBOC) delivered its first cut to banks' reserve requirement ratio (RRR) this year by 25 bps, bringing the effective RRR to 7.6%, with the 1-year loan prime rate (LPR) was kept at 3.65%, while the five-year LPR was unchanged at 4.30%.

## Malaysia Highlights

### ④ Malaysia's inflation remained at 3.7% in Feb 2023

The CPI rose 0.2% m-o-m and 3.7% y-o-y to 129.5 in Feb (Jan 23: 129.5, Feb 22: 125.2). The food index – led by wheat flour and bread - increased 0.4% m-o-m and 7.0% y-o-y, remained as the main contributor to the rise in the inflation in Feb. Meanwhile, other groups that contributed to rise in inflation include and restaurants & hotels (+0.9% m-o-m), housing, water, electricity, gas & other fuels (+0.6% m-o-m) and health (+0.5% m-o-m), while recreation and culture (-0.5% m-o-m) and transport (-0.1% m-o-m) moderated the overall rise in inflationary pressure.

### ④ Feb trade balance remained in surplus despite a decline of 1.3% from the previous year

Trade balance improved 7.9% m-o-m but declined 1.3% y-o-y, respectively, to RM19.5b in Feb (Jan 23: RM18.1b, Dec 22: RM28.1b, Feb 22: RM19.8b). Feb exports declined 0.3% m-o-m, in line with the decreases in the index of beverage and tobacco (-7.0% m-o-m), machinery and transport equipment (-4.6% m-o-m), and mineral fuels (-2.8% m-o-m). Imports edged down 1.9% m-o-m, attributed from the declines in the index of animal and vege oil (-21.5% m-o-m), miscellaneous manufactured articles (-16.2% m-o-m) and crude materials (-14.2% m-o-m).

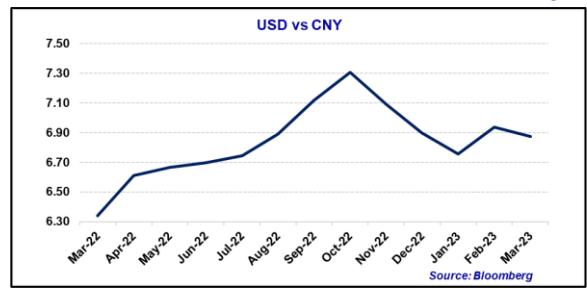

## Market Performance

- ❶ **Shanghai Shenzhen CSI300 Index** declined 0.5% m-o-m mainly on profit taking. Nevertheless, China's surprise abandonment of its zero covid policy at the end of last year has led to a strong rebound in its economy since the beginning of the year, while inflation has so far remained surprisingly low, allowing the PBOC to maintain an easy monetary policy. Healthcare (-4.8% m-o-m), Material (-4.6% m-o-m) and Consumer Discretionary (-4.5% m-o-m) led the decline, while Information Technology (+13.8% m-o-m), Telecommunication Services (+9.6% m-o-m) and Energy (+5.0% m-o-m) were the performing sectors.
- ❷ **Dow Jones Index** reversed some of the losses made in Feb, up 1.9% m-o-m in Mar, despite the market being clouded by bank failures and a state-backed bank merger, as many investors believed that central banks would pivot from their hard line, anti-inflation stance. Technology (+10.9% m-o-m), Communication Services (+10.4% m-o-m) and Utilities (+4.6% m-o-m) were the performing sectors. Lagging sectors were Financials (-9.7% m-o-m), Real Estate (-2.1% m-o-m) and Materials (-1.3% m-o-m).
- ❸ The **Euro Stoxx 50 Index** gained 1.8% m-o-m in Mar, despite concerns over rapidly rising interest rates and the turmoil in the banking sector, as economic activity surprised on the upside on the back of falling energy prices and the resilience of services activity. Gains were led by the information technology, consumer discretionary and communication services sectors. Laggards were real estate and energy.
- ❹ The **Nikkei 225 Index** rose 2.2% m-o-m, extending the gain since beginning of the year. Sentiment was boosted as the Bank of Japan (BoJ) reiterated its commitment to ultra-loose monetary policy and some expectations that the Fed may continue to moderate its monetary tightening. On the economic data front, inflation slowed for the second straight month in Mar at 3.2% y-o-y, led by falling utility and fuel costs.
- ❺ The **FBMKLCI Index** posted its third consecutive month of decline, registering a 2.2% m-o-m drop in Mar, due to concerns over a global banking crisis. The decline was aggravated by a notable increase in the offloading of stocks by foreign investors in Mar. The performing sectors in Mar were Healthcare (+10.0% m-o-m), Utilities (+2.5% m-o-m) and Property (+1.2% m-o-m). The worst-performing sectors were Transport (-5.2% m-o-m), Industrial (-3.6% m-o-m) and Finance (-3.0% m-o-m).

## Currency

- ❶ **USDCNY:** CNY exhibited strength against USD in Mar, appreciating by 0.9% despite the Fed's ongoing rate hikes and the PBOC's persistent dovish position, which was demonstrated by the reduction in the RRR. This improvement was attributed in part to uncertainty regarding the banking crisis in the US, as well as favorable macroeconomic indicators in China, such as the PMI.
- ❷ **USDJPY:** JPY appreciated by 2.4% in Mar due possibly to the USD's safe-haven status being undermined by the global banking turmoil, leading investors to seek refuge in other currencies such as the yuan.
- ❸ **USDMYR:** MYR strengthened by 1.6% m-o-m, as the USD lost strength due to increasing market expectations that the Fed would pivot its monetary policy earlier than previously anticipated. The local note was also supported by the country's relatively strong fundamentals and China's reopening.

## Market Outlook

- On the local front, we continue to maintain our view that the market is likely to stay challenging in 1H23 due to potential earnings risks from rising cost (electricity surcharge hike, higher labour costs due to labour supply tightness, increase in minimum wage since May 22 and higher interest rate), slower global growth and proposal to implement luxury taxes on fashion and watches in Budget 2023.
- Investors will closely monitor the monetary policies of various countries to determine whether interest rates have reached their peak. The outcome of the upcoming six state elections (likely in June) will be closely observed to evaluate the ruling coalition's political performance. The outcome of these polls may influence the budget allocation and the rate of subsidy rationalisation in the Budget 2024, which is scheduled to be presented on 13th October
- Globally, we believe that the markets could continue to experience volatility in the near future, as investors closely monitor inflation rates, the actions of global central banks, geopolitical tensions, and concerns about a potential recession. However, any shift in policy towards a more dovish stance by the central banks would be viewed as positive news.

### Review

- **Performance Overview** – Our portfolio declined slightly by 0.2%, outperformed the FBMKLCI, which edged down 2.2%. Meanwhile, funds within our portfolio recorded mixed performance for the month of March 2023.
- **Top Performer** – Manulife Investment Shariah Asia-Pacific ex Japan – Outperformance was attributed to its heavy weighting in the technology sector that advanced in the month, bolstered by investors' anticipation of a less aggressive increase in interest rates in the US amidst a banking crisis.
- **Worst Performer** – Affin Hwang Aiiman Growth – Underperformance was due to the fund's heavy weighting in the financial sectors, which declined due to subdued investors' confidence stemming from the possibility of a global banking crisis.
- **Allocation** – There is no change to both moderate and aggressive model portfolios in March for PMART-UT Conventional. We will continue to monitor the performance of the funds and rebalance the portfolio, when necessary, in line with the market condition

**Note:**

ABS denotes ranking based on absolute return

RAR denotes ranking based on risk-adjusted return

- YTD is from 31/12/2022 to 31/3/2023.

- 1- and 3-year returns are based on rolling returns.

'E' EPF approved, based on latest available data on Lipper

**The Mechanism**

- 1) Superior ranking based on risk-adjusted-return.
- 2) Commendable ranking based on absolute return.
- 3) Fund size (preferably RM25 million)
- 4) Check on short-term return (1-month or 3-month returns)
- 5) Check top holdings and sectors allocation
- 6) Qualitative evaluations (if needed)
